Wi-Fi for Hospitality

Just a few years ago, Broadband Internet access became a necessity for any hotel looking to lure the business traveler. These days, travelers are demanding wireless access. According to the America Hotel and Lodging Association, AHLA, free Wi-Fi is the number one required hotel amenity. Wi-Fi for Hospitality from Bright House Networks Business Solutions allows you to provide Ethernet and wireless Internet access to your guests over portable devices such as laptops, PDAs and Smartphones in all settings including guest rooms, conference rooms, business centers, lobbies and additional common areas.

The advantage to using Wi-Fi is that it gives business and recreational travelers more mobility and flexibility. Instead of being confined to their hotel room and tied to a modem, guests can access the Internet from any location that has a Wi-Fi "hot spot," which are areas that allow Broadband wireless Internet access. Your Dedicated Account Executive will work with you to ensure you have property-wide wireless coverage to fit your business needs.

HOW IT WORKS

Purchase Wi-Fi for Hospitality and Bright House Networks delivers a property-wide Wi-Fi and Ethernet Internet access solution based on your needs. You can then provide Internet access to your guests with or without a fee through a connection to Bright House Networks. Guests are then able to access the Internet using access codes provided to you by Bright House Networks.

BENEFITS

- Gain a competitive advantage over your competition by offering wireless Internet access to your guests.
- Bright House Networks has existing network infrastructure already built throughout our footprint, many times allowing for a quick connection to your property.
- Bright House Networks Business Solutions provides and manages the wireless signal from our core network through routers and switches on your premises.
- Competitively priced.
- Guaranteed 24/7/365 support for both you and your guests.
- Bright House Networks supplies, installs, and maintains all customer-premise equipment as part of your contract.
- Receive one bill for all services, from a single provider.

GUEST EXPERIENCE

- Guests will locate the available wireless network.
- They will then open their browser using their Wi-Fi enabled device and view the Bright House Networks branded web-based portal page.
- The guest must then enter an access code and accept the Terms and Conditions of service.
- Guests are then granted access to the Internet through a connection to Bright House Networks.

business solutions

Where business gets personal.

WI-FI FOR HOSPITALITY INCLUDES:**Wireless and Wired Internet Service**

- Bright House Networks will deliver Internet access and will install wireless equipment and a network configuration to allow for transmission of wireless signals throughout a property.
- Basic or custom portal page for guest authentication to access the Internet.
- Access codes and access code cards will be provided. The access codes can then be distributed to guests on the property to gain Internet access.
- Property and guest support: Bright House Networks guarantees 24/7 support.
- Monitoring and Maintenance: Bright House Networks supplies, installs, and maintains all customer premises equipment as part of your contract.
- Marketing Collateral: Each property will receive an initial supply of marketing materials including access cards and tent, rack or binder sheets for their guests. Subsequent materials may be ordered by contacting your Dedicated Account Executive. Additional charges apply.
